

Dear TownHouse Guests,

As most of you are already aware, the Townhouse for Dogs & Cats home base tragically caught fire late on the night of April 20th. There were approximately 50 dogs inside our kennel, all rescued and currently safe & healthy. They were saved immediately due to the bravery and fast-acting Westport Fire Department. We cannot thank you enough Westport Fire.

We would like to thank you, our Townhouse residents, for your continued patience and loving support. We have been working around the clock to stay in operation, so that we can continue to offer our services while we sort things out. Fortunately we can confirm that every animal in our care was officially accounted for. Our kennel buildings were far enough away that no smoke or fire damage touched this area of our grounds. Again, thank you for the outpouring support. This speaks volumes about our loyal guests and we love you for it! We have been going for 50 years strong now and are proud of our pet-loving family. We are extremely fortunate after all of this and rest assured, the Town House has an A+ rated fire alarm system and an extremely brave & determined onsite manager Kerri.

Lastly, but certainly not least, our hearts go out to Kerri, our overnight manager and her family, who lost the most. If you would like to show your support for their loss in this terrible accident, you can visit their gofundme page at _____. If there is any concern for your pets regarding this traumatic event, we are here for you and will help answer any questions you may have.

At the end of the day, we're dog owners first; animal care is our main driving force - Our service is fueled by passion and unconditional love for our furry friends out there.

Sincerely,

The Townhouse for Dogs & Cats Team

*****Daycare starts back up on Monday May 2nd. We're open and operating for Boarding, Grooming is happening for small and medium sized dogs.***

Anmarie & kim are currently grooming and taking appointments**
